Global Sports Innovation Center

Powered by  Microsoft

**CLUSTER
E-Business**

GLOBAL SPORTS INNOVATION CENTER: The Global Sports Innovation Center powered by Microsoft (GSIC) has a primary goal of improving the value chain of the Sport industry by leveraging the most advanced technologies, enabling business connections, and becoming a worldwide reference for the sports industry, from start-ups to enterprise organizations. It is a non-profit organization, founded in February 2015. It is a certified Innovative Company Association (AEI) registered by the Ministry of Industry, Energy and Tourism.

The GSIC connects different players (institutions, administration, companies and universities) to create value in different sectors. Located in downtown Madrid, the center provides synergy opportunities, networking, knowledge transfer, technology services, solutions and programs that meet the needs of many audiences, including students, entrepreneurs, governments and industries.

CLUSTER E-Business: Cluster Association for innovation and development of Internet businesses, focused on the development and innovation of business on the Internet, through the promotion of entrepreneurship of this type of business, enhancing the networking of all SMEs in the services sector, business innovation associated with the development of online services based in exploration technology and logistics management. Innovation and information services and knowledge through analysis of successful experiences and exploring the future opportunities of the Internet. It is a certified Innovative Company Association (AEI) registered by the Ministry of Industry, Energy and Tourism.
